

4H TELEVISION PRODUCTIONS

To Whom It May Concern:

Subject: Letter of Recommendation for Donna Walden

During the last approximate six months, I have had the great pleasure and privilege to have worked with Donna Walden, Executive Director, of the Fallbrook Film Factory which produces the Fallbrook Film Festival.

I am Executive Producer and host of a television show entitled, "Life in California," which airs on Time Warner Cable in San Diego and Riverside Counties; and we produced a series of television shows regarding the Fallbrook Film Factory and Festival.

During these productions and film factory activities, I have had innumerable occasions to work with Donna.

Donna's integrity and basic character is absolutely extraordinary; her understanding of the human dimension and relationships and genuine caring is superb; her sense of professionalism in general and her mastery of the myriad of elements and complexities of organizing and leading a non-profit or for-profit organization of the highest caliber; and in addition to everything else a highly personable and charismatic individual that has made her a real pleasure to work with.

In summation, I believe Donna Walden is a truly extraordinary human being who would be a tremendous asset and outstanding representative of any organization.

Sincerely,

Noel Horwin
